NEW YORK WEATHER DEADENS MARKET

Money Easy, but There Is Little Disposition to Seek New Investments of Capital.

LITTLE SPECULATION OF SIGNIFICANT MAGNITUDE

Stocks Remain Weak and Dull Throughout Day's Session: Bonds Are Irregular.

NEW YORK. Jan. 24.-The extremliness, approaching at times stagnation, the day's stock market was partly stributable to the inclement weather. even the coalers which have declined mily on the report of the poor busiless by the open winter failed to secure an advantage from the wintry outbreak were, in fact, among the leaders of the depression. This was due in part to the sympathetic effect of the special reakness of Delaware & Hudson, which as shown a bad effect from the reported note issue. Another note issue was reported today by the Missouri Pacific to un two years and to bear 6 per cent for purpose of providing means to take notes for \$6,000,000, maturing in April These issues of temporar obligations a high interest rate are commented upon leaving open the question of how far he easing money market has opened the

as leaving open the question of how far the easing money market has opened the way for new capital issues. The return flow of money of banking reserves evidently goes on in an undiminished tide. The known movements of money for the week, according to the estimate of the most trustworthy authorities, indicates a gain in cash by the banks of about \$15,000,000. The action of the money market gives abundant evidence that last autumn's \$100,000,000 of gold imports and \$54,000,000 of bank note expansion are now leaving their results of plethoric conditions in the money market with the turning back of the sums then driven into hoarding by the panic.

Money continued to press on the market for call loans on account of both the local and out-of-town banks today and no better rate than 2 per cent could be procured for it. Rates for time loans also continue to yield and the demand for mercantile paper to broaden. The withdrawal of treasury deposits from the New York banks has begun without checking the downward tendency of money rates, notwithstanding the declining in the rates for money abroad.

Speculative operations of the larger class are on an insignificant scale. The events which are supposed to be awaited as necessary preliminaries to any new speculative stands are the quarterly report of the United States Steel corporation next Tuesday and the complexion of proposed prosecution by the Government against the Harriman railroad merger.

Honds were irregular. Total sales, par value, \$2,504,000.

WHEAT MARKET STRONG LARGE QUANTITIES ON REPORTED DAMAGE

in the Southwest: Advance in Corn Helps.

CHICAGO, Jan. 24 .- Additional reports of damage done by "green bugs" to the rop in the southwest and the advance in corn imparted strength to the wheat market today, the May delivery closing at ic advance. Corn was 201c and cats were to higher, and provisions 710150

were to higher, and provisions 1220 to higher.

The strength in the wheat market developed in the final hour of trading and was inspired lavgely by an advance of aimost ic in corn. More reports from the southwest telling of the unhealthy appearance of the new crop in Kansas caused considerable buying. May wheat opened 182c lower, at \$1.01\$61.01\$ advanced to \$1.02\$61.02\$, and closed at \$1.02\$

The corn market opened weak but

The corn market opened weak but prices soon advanced on an active demand from commission houses and shorts, and sentiment continued builish through the remainder of the day. The close was strong. May corn opened i@ie lower, at 504@501c, advanced to 514@611c, and closed at 512@511c.

Oats made a fair gain late in the day because of the advance in corn. May opened unchanged at 532c, sold at 532c, advanced to 542c, and closed at 545c.

The provision market was firm all day because of small receipts of live hogs at all Western packing centers. At the close May pork was 152c higher, lard was 10c higher, and ribs 73c higher.

Dun's Trade Review.

Dun's Trade Review.

NEW YORK, Jan. 24.—R. G. Dun & Company's weekly Review of Trade tomorrow will say:

More manufacturing plants have resumed, and money is abundant at easy terms, but business feels the weakened purchasing power of the thousands still unemployed. Buyers arrived in large numbers in the local jobbing dry goods market, placing fair orders at the lower prices named on some descriptions, and this forward business was also liberal at other large centers.

Mercantile collections continue to improve, although backward at many points. Industrial news was slightly more encouraging on the whole, but there is much idle machinery, and the local coal output has been curtailed on that account, logether with the tardiness of winter.

A little better demand is noted for products of from and steel, and more plants have resumed, until it is probable that one-half the capacity is in operation. Results thus far have been accomplished without material concessions in prices. Building operations are resuming to some extent, structural steel was also taken for railway bridges.

A better tone is recorded in the bide market, tanners exhibiting, more interest and a substantial volume of business was transacted.

"Green Bug" Said to Be Busy No Change in the Price of Turkeys: Quotations on Oysters.

> Friday, was fish day, and everybody seemed to know it, for fish was ordered out and sold in large quantities. Salmon at 20 cents a pound, halibut at its cents out and sold in large quantities. Salmon at 20 cents a pound, hallbut at 15 cents a pound, and catfish at 175 cents a pound, and catfish at 175 cents a pound were the chief items of sale. Pompano appeared in some of the markets at 25 cents a pound, although this delicacy is generally scarce. Oysters range from 40 cents to 75 cents a plnt, and Blue Points maintain their steady price of 30 cents a dozen. In the line of fowls, turkers have remained at their old price of 275 cents ever since Christmas, and still no sign of dropping. Spring chickens sell for 20 cents a pound and hens at 18 cents.

Bradstreet's Review. YORK. Jan. 24.-Bradstreet's will say: NEW TORK, Jan. 24.—Bradstreet.*
Itomorrow will say:
Trade and industry are still quiet, commodity prices have quite generally moved downward, collections are backward, an increased quantity of railroad equipment is reported idle, less satisfactory reports as to demand come from the iron and steel and coal industries, and an increased disposition is noted to discuss wage reductions as an offset to restricting production.

ing production.

Wholesale trade as a whole is slow to Wholesals trade as a whole is slow to open. Travelers on the road report buying to be of a filling-in character, sufficient merely to replace broken stocks, and a slow and late opening of apring trade is looked for. Reports as to collections indicate slowness in meeting engagements, and mention is made of numerous extensions being asked and granted.

There are a number of reports of resumption or increased time in various industries, but these are largely offset on the whole by restriction in other lines. Some metal working industries are running fuller, and lumber mills at the South and on the Pacific coast are reported resuming.
